

SONNY ARIADY

Technical Consultant | Senior .NET Engineer | Enterprise Application Modernization

Bekasi, West Java, Indonesia | +62 877-7665-7621 | sonnyariady@gmail.com

LinkedIn: linkedin.com/in/sonnyariady | GitHub: github.com/sonnyariady

PROFESSIONAL SUMMARY

Technical Consultant and Senior .NET Engineer with **15+ years of experience** delivering enterprise applications across banking, insurance, FMCG, manufacturing, telecommunications, and technology sectors. Expertise in **.NET 9, C#, ASP.NET APIs, Blazor, .NET MAUI Hybrid, application modernization, workflow automation, systems integration, and SQL-based platforms**. Combines hands-on engineering with solution design, stakeholder engagement, production support, security remediation, and modernization of legacy low-code/monolithic systems. Experienced in AI-assisted development tools (ChatGPT, Copilot, Gemini, Perplexity, Antigravity AI) for rapid solution synthesis.

RELOCATION & WORK AUTHORIZATION

Based in Bekasi, West Java, Indonesia. **Open to relocation** for suitable roles across Europe, Singapore, Malaysia, Australia, and New Zealand. Employer-sponsored visa/work permit or relocation support required. Available to relocate on an agreed timeline and familiar with cross-border employment arrangements through Employer of Record (EOR) providers such as Deel and Remote.

CORE COMPETENCIES

Enterprise Application Modernization • Solution Design • Backend Architecture • REST & SOAP APIs • Microservices • Cross-Platform Web & Mobile Development • Workflow Automation • Systems Integration • Production Support • Security Remediation & Pentest Governance • Stakeholder Management • Business Analysis

TECHNICAL SKILLS

.NET & Architecture:	.NET 9, C#, .NET Core, .NET Framework, ASP.NET MVC, ASP.NET Web API, Blazor, MudBlazor 7.4.0, .NET MAUI Hybrid, Microservices, REST APIs, SOAP services
Modern Web & Fullstack:	React 19, TypeScript, Vite, Node.js & Express, Prisma ORM, PostgreSQL, TailwindCSS/Vanilla CSS
Integration & Workflow:	Apache Kafka, SAP Integration, Ultimus Workflow, business process automation, custom workflow development, API integration
Frontend UI:	Angular, AngularJS, JavaScript, jQuery, Bootstrap, Kendo UI, HTML5, CSS3
Data & Reporting:	Microsoft SQL Server, PostgreSQL, MongoDB, Redis, SSRS, Crystal Reports, wkhtmltopdf, Excel reporting & automated export
DevOps & Observability:	GitHub Actions CI/CD, Azure DevOps, Git, Docker & Docker Compose, Linux (Ubuntu), Nginx, OpenTelemetry, SonarQube, JMeter, Redgate SQL Toolbelt, Visual Studio, VS Code
AI-Assisted Development:	ChatGPT, GitHub Copilot, Gemini, Perplexity, Antigravity AI (Prompt engineering, code synthesis, log diagnostics, ETL automation)

PROFESSIONAL EXPERIENCE

PT Nexia Indonesia - Technical Consultant	Oct 2025 - Present
- Lead migration of enterprise applications from OutSystems low-code to .NET 9 API architecture, reducing platform dependency and licensing costs while improving maintainability. - Design reusable service patterns for CRUD operations, validation, advanced filtering, pagination, and Excel export across business modules. - Deliver Blazor and MudBlazor web applications together with .NET MAUI Hybrid mobile solutions for cross-platform use cases. - Implement CI/CD automation with GitHub Actions and Docker-based deployment workflows for Linux environments. - Partner with stakeholders and end-users to translate complex business processes into scalable, supportable technical solutions.	
PT Kimberly-Clark Softex (via Tech Mahindra) - .NET Developer	Jun 2025 - Sep 2025
- Stabilized legacy enterprise applications through targeted bug remediation, enhanced logging, and production issue resolution. - Improved reporting and Excel export capabilities supporting critical business operations. - Completed technical upskilling modules on Tech Mahindra's internal learning portal across multi-stack frameworks (Node.js, React.js, Spring Boot) for project deployment readiness.	

PT AIA Indonesia (via Glints) - .NET Developer**Aug 2024 - May 2025**

- Developed APIs and Blazor applications supporting agent (ABDPlus) and customer management platforms.
- Enhanced observability through telemetry and monitoring implementation, and delivered security remediation for penetration-testing findings (Veracode).

PT Bukit Makmur Mandiri Utama - Senior .NET Backend Developer**Aug 2022 - Aug 2024**

- Designed backend architecture for modular enterprise applications (including MIGO Online SAP Integration & CRF Online Workflow) and supported modernization initiatives improving scalability and maintainability.
- Strengthened code quality and security compliance through SonarQube governance and engineering standards.

PT Alpha Indosoft - Senior .NET Backend Developer**Apr 2021 - Aug 2022**

- Refactored enterprise APIs into scalable architectures and developed automated reporting schedulers.
- Implemented Kafka-based integrations and Telegram monitoring solutions to accelerate incident response.

PT Job Tomori - .NET Developer**Apr 2020 - Mar 2021**

- Developed end-to-end applications using .NET and Angular, including SOAP integration and workflow automation.

PT Berlian Sistem Informasi - .NET Developer**Jan 2018 - Mar 2020**

- Modernized legacy applications and integration services, and developed APIs supporting mobile and workflow initiatives.

Accenture Indonesia - .NET Developer**Aug 2017 - Dec 2017**

- Contributed to fleet management and pricing platform initiatives using Agile delivery practices, Azure DevOps, and Git.

Bank Negara Indonesia - .NET Developer**2014 - 2017**

- Led migration of legacy PHP applications to .NET and SQL Server architecture.
- Developed eOffice and operational banking applications, including APIs supporting Android integration.

FEATURED PROJECTS & CASE STUDIES

- **Tukang Sayur Online (Web & Mobile):** Cross-platform hyper-local e-commerce platform built with .NET 9, Blazor Server & MAUI Hybrid, MudBlazor 7.4.0, ASP.NET Core API, and PostgreSQL (GitHub: github.com/sonnyariady/TukangSayurOnline).
- **TukangRoti (Sonny Bakery POS):** Fullstack bakery POS cashier, inventory, and order management system built with React 19, TypeScript, Vite, Node.js & Express, Prisma ORM, and PostgreSQL (GitHub: github.com/sonnyariady/TukangRoti).
- **Monthly Expense Tracker:** Fullstack household expense management built with React 18, FastAPI, SQLite, and AI-assisted development (GitHub: github.com/sonnyariady/vibe-expense-tracker).

EARLIER EXPERIENCE

- **Tower Bersama Group - .NET Developer | 2017:** Delivered enhancements for employee management applications using VB.NET and ASP.NET Web Forms.
- **Integrasi Solution - .NET Developer | 2009 - 2014:** Delivered enterprise workflow solutions using Ultimus Workflow and created a reusable Web Form Generator framework.
- **Global Administrasi Solusi - Junior Developer | 2006 - 2007:** Developed Crystal Reports and automated recurring reporting activities.

EDUCATION

- **Institut Teknologi Bandung (ITB)** - Master of Engineering in Informatics | 2007 - 2009
- **Universitas Trisakti** - Bachelor of Engineering in Informatics | 2001 - 2006

CERTIFICATIONS

- Microsoft Certified Professional (MCP) - 2009
- Microsoft Certified Technology Specialist (MCTS): .NET Framework 3.5 Windows Forms Application Development - 2009
- Microsoft Certified Professional Developer (MCPD): Windows Developer 3.5 - 2010
