

Sonny Ariady

Senior .NET Developer & AI-Assisted Software Engineer | Technical Consultant | Tech Lead

Bekasi, West Java, Indonesia | +62 877-7665-7621 | sonnyariady@gmail.com | LinkedIn: linkedin.com/in/sonnyariady | GitHub: github.com/sonnyariady

PROFESSIONAL SUMMARY

Senior .NET Engineer and Technical Consultant with **15+ years of experience** delivering high-performance enterprise applications across banking, FMCG, insurance, manufacturing, and telecommunications. **Pioneer in AI-assisted software engineering**, leveraging tools like GitHub Copilot, ChatGPT, Gemini, Perplexity, and Antigravity AI to accelerate development workflows, conduct deep error-log diagnostics, summarize and compare complex datasets, and streamline Linux/Ubuntu infrastructure deployment and troubleshooting. Hands-on expert in **.NET 9, C#, ASP.NET APIs, Blazor, .NET MAUI Hybrid, microservices, and Docker/Nginx containerization**. Proven track record in solution architecture, modernizing legacy systems, and technical leadership. Available for Full-Time, Hybrid, or Remote roles in Jabodetabek and Indonesia.

TECHNICAL SKILLS & COMPETENCIES

.NET & Architecture:	.NET 9, C#, .NET Core, .NET Framework, ASP.NET MVC, ASP.NET Web API, Blazor, MudBlazor 7.4.0, .NET MAUI Hybrid, Microservices, Solution Architecture
AI-Assisted Engineering:	GitHub Copilot, ChatGPT, Gemini, Perplexity, Antigravity AI (Applied for AI-assisted coding, log diagnostics, data analysis & comparison, natural language ETL, and Linux/Ubuntu troubleshooting)
Fullstack & Modern Web:	React 19, TypeScript, Vite, Node.js & Express, Prisma ORM, PostgreSQL, TailwindCSS/Vanilla CSS
DevOps & Infrastructure:	Linux (Ubuntu), Nginx, Docker & Docker Compose, GitHub Actions CI/CD, Azure DevOps, Git, OpenTelemetry, SonarQube, JMeter
Integration & Data:	Apache Kafka, SAP Integration, Ultimus Workflow, Microsoft SQL Server, PostgreSQL, MongoDB, Redis, SSRS, Crystal Reports, REST & SOAP APIs
Frontend & UI:	Angular, AngularJS, JavaScript, jQuery, Bootstrap, Kendo UI, HTML5, CSS3

PROFESSIONAL EXPERIENCE

Technical Consultant PT Nexia Indonesia	Oct 2025 – Present
- Lead the migration of enterprise applications from OutSystems low-code to .NET 9 API architecture, significantly reducing platform licensing costs and improving maintainability. - Utilize AI-assisted tools (Copilot, ChatGPT, Gemini, Antigravity AI) for rapid code synthesis, complex data comparison, error-log diagnostics, and Linux/Ubuntu deployment troubleshooting. - Design reusable service patterns for CRUD operations, validation, advanced filtering, pagination, and automated Excel exports across core business modules. - Deliver Blazor/MudBlazor 7.4.0 web applications and .NET MAUI Hybrid mobile solutions for cross-platform enterprise use cases. - Implement CI/CD automation with GitHub Actions and Docker-based deployment workflows for Nginx/Linux environments.	
Senior .NET Developer PT Kimberly-Clark Softex (via Tech Mahindra)	Jun 2025 – Sep 2025
- Stabilized legacy enterprise applications through targeted bug remediation, enhanced logging, and production issue resolution. - Improved reporting efficiency and automated Excel export capabilities supporting critical business operations. - Actively engaged in continuous technical upskilling via Tech Mahindra internal learning portal (exploring Node.js, React.js, Java Spring Boot) to maintain enterprise readiness for multi-stack deployment.	
.NET Developer PT AIA Indonesia (via Glints)	Aug 2024 – May 2025
- Developed core REST APIs and Blazor applications supporting agent (ABDPlus) and customer management platforms. - Enhanced observability through OpenTelemetry implementation and successfully delivered security remediation for penetration-testing findings (Veracode).	

Senior .NET Backend Developer | PT Bukit Makmur Mandiri Utama

Aug 2022 – Aug 2024

- Designed backend architecture for modular enterprise applications (including MIGO Online SAP Integration & CRF Online Workflow) and supported modernization initiatives improving scalability.
- Strengthened code quality and security compliance through SonarQube governance and standardized engineering practices.

Senior .NET Backend Developer | PT Alpha Indosoft

Apr 2021 – Aug 2022

- Refactored monolithic enterprise APIs into scalable microservice architectures and created automated reporting schedulers.
- Implemented Kafka-based event integration and Telegram monitoring solutions to accelerate incident response times.

.NET Developer Roles | Job Tomori, Berlian Sistem Informasi, Accenture, Bank Negara Indonesia (BNI)

2014 – 2021

- BNI (2014–2017):** Led technical migration of legacy PHP internal applications to modern .NET and SQL Server architecture; developed eOffice and banking APIs.
- Accenture & BSI (2017–2020):** Delivered fleet management, pricing platforms, modern workflow integrations, and APIs using Agile, Azure DevOps, and Git.
- Job Tomori (2020–2021):** Developed end-to-end .NET and Angular applications with SOAP integrations and workflow automation.

FEATURED PORTFOLIO & CASE STUDIES

- Tukang Sayur Online (Web & Mobile):** Real-time hyper-local vegetable commerce platform built with .NET 9, Blazor Server & MAUI Hybrid, MudBlazor 7.4.0, ASP.NET Core API, and PostgreSQL. Features geo-discovery, role-based access, and bilingual support.
- TukangRoti (Sonny Bakery POS):** Fullstack bakery production, inventory, POS cashier, and order management system built with React 19, TypeScript, Vite, Node.js & Express, Prisma ORM, and PostgreSQL. Features setup wizard, thermal receipt printing, and real-time inventory.
- Monthly Expense Tracker & AI Data Pipeline:** Fullstack expense management (React 18, FastAPI, SQLite) and automated C# .NET 9 + Antigravity AI ETL pipeline for SQL Server to PostgreSQL data migration.

EARLIER EXPERIENCE

- Tower Bersama Group (2017):** .NET Developer – Enhanced HR employee management systems using VB.NET and ASP.NET Web Forms.
- Integrasi Solution (2009–2014):** .NET Developer – Delivered enterprise workflow solutions using Ultimus Workflow & Web Form Generator.
- Global Administrasi Solusi (2006–2007):** Junior Developer – Developed Crystal Reports and automated recurring reporting processes.

EDUCATION

- Master of Engineering in Informatics (M.T.)**
Institut Teknologi Bandung (ITB) (2007–2009)
- Bachelor of Engineering in Informatics (S.T.)**
Universitas Trisakti (2001–2006)

CERTIFICATIONS

- MCPD:** Windows Developer 3.5 (2010)
- MCTS:** .NET Framework 3.5 (2009)
- MCP:** Microsoft Certified Professional (2009)
